

Responsible Procurement Policy

We at DCM Shriram Ltd. are conscious on environment and believe in the ethical and fair business practices and the philosophy of 'Sustainable Development'. ESG is an integral part of our decision-making and we are committed to work with our value chain partners to adopt the same practices and in making informed decisions for responsible procurement culture across the supply chain.

We shall strive to achieve responsible procurement through the following:

- Promote awareness amongst value chain partners to minimize the negative impact on environment.
- Prefer equipment that are environment friendly as far as possible.
- Utilize reusable & recyclable materials wherever possible.
- Communicate our Company's Human Rights Policy and Environment, Health & Safety (EHS) Policy commitments as part of contract agreements.
- Prefer value chain partners compliant to applicable EHS and labour laws.
- Encourage our employees on responsible procurement practices and recycling products wherever possible.
- Reuse/recycle packaging material of raw materials/equipment supplied.
- Encourage value chain partners in improving their ESG performance through sharing of best practices on ESG.
- While engaging with the value chain partners, adherence to principles of anti-bribery, anti-competition and transparency.

The policy shall be implemented and adhered to by all end users and departments responsible for purchasing of materials and services.
