

Beat the heat with the range of 'Fenesta' Windows and Doors

As soon as the summers approach, we look for ways to combat the heat and keep our cosy homes cool. A unique and effective way to control the temperature of your room this summer is to install Fenesta windows and doors. These premium UPVC products from Fenesta not only look enhance the aesthetics of your home with their elegance but will also insulate it from the outside heat through its superior insulation features.

Ideal for Indian living conditions, Fenesta windows and doors come with three built-in heat insulating features that minimise the cost of heating and cooling of your home without sacrificing the aesthetics.

- **THE MATERIAL OF CONSTRUCTION 'UPVC'** - A poor conductor of heat, UPVC neither retains nor transfers heat indoors. Aluminium does both. The U-Value (the calculation of conducting properties) of UPVC is comparable to wood and far less than Aluminium.
- **AIR-TIGHT SEALING** - Use of fusion welded joints, multi-chambered profiles, multiple point locks and silicone sealant for airtight sealing that prevents the conditioned cold air from escaping out and hot air from flowing in.
- **DOUBLE INSULATION** - All Fenesta windows and doors can be fitted with double or triple insulated glass, which is often used in modern buildings with high green rating - as the means to save power.

In addition to the above features that help in reducing energy costs dramatically, Fenesta products also offer superior insulation against noise, dust, rain and pollution by preventing them from invading your homes.

Low maintenance, weather resistance, durability and 10 Years warranty are some of the other properties that make Fenesta's UPVC windows and doors much more attractive to the consumers compared to the traditional alternatives like wood and aluminium.

So, this summer, choose from over 700 international window and door styles, and several customized options that add to the value Fenesta bring to the customer and his home.

Some of the popular window and door styles from Fenesta include:

- **Sliding Window:** Features two (or more) horizontal sashes fitted with rollers at the bottom for swift sideways movement on tracks. Easier and faster to operate, they are great for air circulation, panoramic views and optimized usage of space.

- **Casement Windows:** It features a sash that is hinged from the side on an outer frame and can open inwards or outwards, to the left or right, allowing maximum flow of air into the room. Extremely energy efficient when closed, this casement window comes in varied designs like side hung, top hung etc.
- **Fixed Window:** Popularly known as picture windows they are stationary, non-opening windows intended to allow light into the room, offer an unobstructed view of outside and enhance the aesthetics of a home. It can also be paired with other window types to create a unique style statement.
- **Slide & Fold Door:** Designed for large openings, this new generation door joins multiple sashes in a unique slide and fold mechanism. The sashes move in either direction (left or right) and can be stacked at either end. It can open from wall to wall for maximum unobstructed opening to the outside, or open partly for ventilation and access. When closed, it is extremely secure and insulated, and comes across as a beautiful wall of door panels.
- **Designer Door:** An all-purpose door from Fenesta which suits all your needs without compromising on performance. The Fenesta Designer door can be used in your entrance, in rooms, bathrooms, kitchens as well as any other area.

India's No.1 windows and doors brand, Fenesta products come in a variety of colors and offers 360 degree services, right from survey to installation to post sales services, ensuring a hassle-free and smooth customer experience. For a walk through of the products Fenesta offers its customers the unique experience of its products in its Signature Studios across nine metro locations of Gurgaon, Noida, Kolkata, Mumbai, Pune, Ahmedabad, Chennai, Bangalore and Hyderabad and more than 100 partner showrooms across the country.
